## CAREER OBJECTIVE

Full-stack developer pursuing an MCA at IGNOU, with hands-on experience shipping web applications, REST APIs, and developer tooling in React, Node.js, Java, and Spring Boot. Built role-based LMS platforms, e-commerce systems, and a desktop app with CI/CD, Docker, and GCP.

## EXPERIENCE

### Full Stack Web Developer Trainee

02/2026 – 05/2026

SPCL Infotech Services Pvt. Ltd. | Full-time / Remote

- Shipped 3 production-style full-stack projects – a hotel booking system, movie rating platform, and e-commerce homepage – using React, Tailwind CSS, and PostgreSQL for end-to-end data handling.
- Built dynamic UI components with form validation and interactive filtering following UI/UX best practices; managed GitHub source control and shipped deployments to Netlify and Vercel.

### Frontend Developer Intern

02/2026 – 03/2026

Search Point

- Built responsive UI components, integrated third-party APIs, and delivered 3 feature-complete UI modules; received a Verified Achievement Record upon successful completion.

## PROJECTS

### TimeStream – Developer Activity Tracker

01/2025 – 05/2026

- Impact:** Cuts repeat searching by surfacing previously viewed content instantly.
- Built an Electron desktop app (Vanilla JS, Tailwind CSS, SQLite) (*timestream.netlify.app*) + Chrome/Firefox extension logging GitHub, YouTube, ChatGPT, Claude, and Perplexity with a smart scoring algorithm; automated CI/CD via GitHub Actions.

### Online Learning Platform – Full Stack LMS

09/2025 – 12/2025

- Impact:** Automated PDF question extraction, saving teachers hours of manual question-paper creation.
- Built a role-based LMS (React, Node.js, Express.js, PostgreSQL) with JWT authentication, course management, and analytics; integrated multiple LLMs to convert PDFs/images into structured JSON, containerized with Docker, and deployed on GCP. (*online-learning-portal-ten.vercel.app*)
