

Travel Agency Website Development Assignment

Objective: Design and develop a professional, responsive travel agency website with multiple pages. The goal is to apply your web development skills in layout design, responsiveness, and user experience.

Project Requirements:

- 1 Create a minimum of 5 pages (Home, About Us, Destinations, Packages, Contact Us)
- 2 Ensure full responsiveness (mobile, tablet, desktop)
- 3 Use clean and modern UI/UX design
- 4 Include navigation bar and footer on all pages
- 5 Add images, banners, and proper content structure
- 6 Contact form with validation
- 7 Use proper file structure and naming conventions

Suggested Features:

- 1 Search or filter destinations
- 2 Package listing with pricing details
- 3 Image gallery or slider
- 4 Testimonials section
- 5 Call-to-action buttons (Book Now, Enquire Now)

Submission Guidelines:

- 1 Deploy the website (Netlify / GitHub Pages / Hosting)
- 2 Provide live link and source code
- 3 Include a README file with project details
- 4 Ensure all links and pages are working properly

Deadline: As assigned by the mentor
